financial.

HAVE TOLD THE TRUTH

When we told our investors that the oil companies for which we were fiscal agents would pay a dividend at the rate of 2% monthly we believed it. Our customers have proof in the receipt of dividend checks that it has been done. All three of the companies whose stock we sold pay dividends at the above rate, and were oversubscribed several thousand shares. Now, after thorough examination, we have become fiscal agents for a fourth company, whose stock we offer the investing public. As our judgment was successful in the selection of 3 dividend payers, isn't it reasonable to suppose we can select another? WE HAVE ANOTHER, and when we offer you a company ably officered, backed by 20,120 acres of rich oil lands, with producing wells, we do so believing it to be equal if not superior

Eastern Consolidated Oil Company

Has a MANAGEMENT AND BOARD OF DIRECTORS composed of men whose character and

integrity stand high in the esteem of all who know them.

Hon. D. N. MORGAN, New York, President, Former Treasurer United States. Hon. MILES B. PRESTON, Mayor of City of Hartford for two terms.

Hon. ERNEST CADY, Hartford, Vice-President, Ex-Lieutenant-Governor State of Connecticut. Hon. CHARLES J. NOYES, Former Speaker of Mass. House of Representatives.

L. A. CORBIN, Rockville, Conn., of White, Corbin & Co., One of the largest manufacturers of envelopes in this country.

This Company Controls 20,120 Acres

Of the Richest and Best Oil Fields in California as Follows:

110 acres with three producing wells and a fourth well nearly completed in the Los Angeles Southwestern field, considered one of the richest and most productive oil fields in the State. Orders have been given to drill seven additional wells upon this tract before August 1st.

10 acres in the famous Section 29, Township 28, Range 28, Kern River District. Immediately adjoining these 10 acres are wells producing 400 and more barrels of oil daily.

20,000 acres in Santa Barbara County, directly on the coast, with wherves and railroad stations on the land, giving best and cheapest transportation facilities. Through this immense tract extends a rich oil strata, which is now being developed. This is probably one of the largest tracts of oil lands in this country held by a single company. The Eastern Consolidated Oil Co. proposes to sink wells upon this land as rapidly as possible, and will also lease to other companies who will drill wells and pay handsome royalties.

The Eastern Consolidated Oil Co. from its producing wells is earning handsome dividends upon the selling price of the stock now being sold, and when its property is fully developed the dividends will be at a very high rate. We, as Fiscal Agents, do cand dly believe that this proposition will fully uphold our present reputation of being the largest and most successful dealers in DIVIDEND PAYING OIL

We offer you a limited amount of this choice stock, subject to advance without notice, at

25c. a Share. Par Value \$1.00. WHAT WE WILL NOT DO.

We will never knowingly sell any stock of questionable value. It is not our policy to deal in inferior p opositions where they were not backed by worth and value. Our policy is and always has been to give our clients valuable stocks which will pay good dividends. We do not pretend to say that there are not some other good oil propositions offered on the market, but wed) say that this is a splendid company whose prospects are the very brightest, whose management cannot be surpassed, and which is already earning handsome dividends. which will undoubtedly be increased when a number of new wells now being drilled are producing. We have absolutely refused scores of oil propositions on account of their not having producing wells and dividend paying incomes. If any discredit falls upon the oil industry, it will be on account of companies advertising dividends without having producing wells with which to earn them.

FINANCIAL AND COMMERCIAL

SATURDAT, May 11.

The statement of averages of the Associated Banks to-day was regarded with only moderate interest, as it failed to show any reflection of the heavy liquidation in the loans and deposits of the local institutions which has undoubtedly taken place in the week. On this account to-day's exhibit is less favorable than the actual conditions. The statement furthermore does not include the extremely large receipts of money from the West that came to hand late in the week.

As a matter of fact the statement may be regarded chiefly as an index of the condition of the banks in the first three days of the week. This is shown by the increased to the preliminary estimate published in this solumn this morning. The net result is a decrease of \$2.852,625 in the surplus reserve, bringing the total of that item down to \$8.127.

**SATURDAT, May 11.

**Sterling exchange was distinctly firmer and more interest than usual on Saturday and more interest than usual on Satu

through smoothly also made a good impression. At the close of business it was reported that trading in American railway shares on the curb was being conducted briskly and that the general disposition was to buy. It is recognized in London as well as in this country that the recent distressing episodes on the New York Stock Exchange have not impaired the favorable trade conditions in the United States or the prospects of increasing earnings and enhanced profits of railroads.

The imports of general merchandise, including dry goods, at the port of New York Stew York Stock Exchange week of last year. The imports of specie for the week were \$95,104, of which \$24,104 was gold, making total specie were: Gold, \$760,500, and silver, \$441-500, a total of \$1,22,000, argainst \$4,871,339 the previous week. The exports of specie were: Gold, \$760,500, and silver, \$441-500, a total of \$1,22,000, argainst \$4,871,339 the previous week. The exports of specie were: Gold, \$760,500, and silver, \$441-500, a total of \$1,572,951, and silver, \$20,045,087, a total of \$35,788,087.

so far as the position of the large interests seeking to control the property is concerned. to arrive at a harmonious understanding regarding their projects in the railway world.

The Government crop report, published yesterday, bears out the promise of one of the largest yields of winter wheat or record, provided present conditions are maintained Information received from the principal winter wheat States is in line with the Government estimates at this time Heretofore the States agricultural bureaus and the Government reports have as a rule conflicted Actual shipments of wheat and cern, aiready large, are expected to continue to show in creasing volume owing to current low prices in corn in thicago due to the manipulation by the bull leader in the market for that cereal is attracting a good deal of new corn, and it would not be surprising if the movement should later assume unexpectedly large proportions.

The State agricultural bureaus described and corn, aiready large, are expected to continue to show in creasing volume owing to current low prices in corn in thicago due to the manipulation by the bull leader in the market for that cereal is attracting a good deal of new corn, and it would not be surprising if the movement should later assume unexpectedly large proportions.

The swould mean increasing earnings for all of the so-cealed corn roads and their trunk and it would not be surprising if the movement should later assume unexpectedly large proportions.

The Burlingston Rarios of States are captured with the same months and their trunk and the cornesponding period of last year, and net \$2,20,233, an increase of \$20,203 as compared with the same months ending March 31 the gross earnings were \$3,03,03,05, a decrease of \$20,203.

The Atlantic Coast Line Railroad reports are sometiment was slow.

The Atlantic coast Line Railroad reports are sometiment with the same months ending March 31 the gross earnings seemed to the corner point of last year, and net \$2,00,000 as compared with the same months ending March 31 the gross earnings were \$3,03,000 as compared with the same proportions.

The would re

This would mean increasing earnings for all of the so-called corn roads and their trunk line connections. Spring wheat is now being planted under favorable conditions, aside from the single consideration of the lateness of the senson. The West was one of the most enthusiastic contributors to the recent great advance in security prices, having been impressed from the start with the tremendous possibilities in the direction of the direction of the direction of the direction of the senson and their trunk line connections. Spring wheat is now being planted under favorable conditions, aside from the single consideration of the lateness of \$40,243, an increase of \$41,847 as compared with the same month of last year, and net. \$2,201,443, an increase of \$41,847 as compared with the same month of last year, and net. \$12,201,472, an increase of \$40,552 as compared with the same month of last year, and net. \$12,201,472, an increase of \$40,552 as compared with the same month of last year, and net. \$12,201,472, an increase of \$40,552 as compared with the same month of last year, and net. \$12,201,472, an increase of \$40,552 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year, and net. \$12,201,473, an increase of \$41,817 as compared with the same month of last year. And net same land year. And net same land year and ne again engage on the bull side of the account. However discressing the results of the slump in prices may have been to the average overspeculator the general stock market situaion is healthier and the Street expects that advantage will undoubtedly be taken in the near future by bargain hunters to secure good stocks on any recessions in prices that pay take place. The extraordinary financial stability shown by the New York Stock Ex-

hange has created a great impression not aly in this country but also in Europe The news of the day included some enuraging statements of railroad earnings. cluding the report of the Illinois Central ilroad for March, which will be found elsewhere in this column.
